

TURN INDUSTRIAL DATA INTO A COMPETITIVE ADVANTAGE

IIoT as enabler for
the digital thread

THE TECHNOLOGY IS HERE, THE TIME IS NOW

IIoT business impact*

- Monitor asset health to meet business objectives
- Accelerate time to market for new services and business models
- Lower operating costs, reduce waste, avoid unplanned downtime

*Gartner Hype Cycle for Manufacturing Operations Strategy 2025

**FOD Economie (Belgian Federal Public Service Economics)

DIGITAL THREAD IN PRACTICE

Use cases and examples

01

Asset & field performance management

See. Control. Act. Full asset insight with monitoring and control, combined with smart field response to deploy the right technician at the right time.

How can I manage our energy usage for optimal comfort in our facilities, while meeting our sustainability goals?

02

Predictive maintenance

Use sensor data to measure the performance of your product in the field and create alerts that help you optimize your customer service by planning maintenance ahead of breakdowns.

When should I plan replacement of this component?

03

Overall Equipment Effectiveness

Discover your OEE by measuring availability, performance and quality.

Which production inefficiencies can I eliminate for a higher production yield?

HOW TO GET STARTED?

Building blocks for a smart, connected enterprise

Application architecture

Your existing digital foundation where systems, assets and users interact.

Connected IT/OT data

Integrated operational (OT) and enterprise (IT) data for real-time visibility.

Enterprise integration layer

The backbone that makes data flow smoothly between systems, devices and applications.

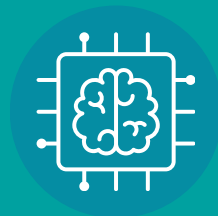

Unified dashboarding

Real-time insights at a glance.

Apps & AI agents

Automation and agents that turn data into actions.

Security

Built-in protection for your entire digital ecosystem.

BUILDING YOUR DIGITAL THREAD TOGETHER, THE SMART WAY

Scale for growth

"What we appreciated is that Savaco proactively provided solutions that helped us avoid hitting boundaries as our platform grows in the future."

–Steven Devos, CNH

Security first

"Keep security in mind before you start building your platform."

– Wim Van Geem, Savaco

Avoid vendor lock-in

"Using Kepware, we were able to read more PLC's more quickly."

– Bert Seurynk, Paneltim

Do it together approach

"There's a lot of added value in the fact that Savaco shares their know-how with us. It provides the foundation from which we can continue to build our IoT platform."

–Steven Devos, CNH

THE RESULTS

A smart, connected enterprise

- ✓ Streamlined production
- ✓ Managed & efficient energy & resources use
- ✓ Cost savings
- ✓ Insights from the field, as a basis for further innovation
